

ECO ARTS EXHIBITION

Oceania Centre Gallery, USP, December 2013 as part of the ECOPAS conference.

These are images that are displayed below are some of the art works that were the result our Eco Arts Research Project that was held on Beqa island in September 2013.

Oceania centre Artists staff and four USP students spent a week on Beqa Island where they made art from found objects and using sand to make large sand sculptures.

Below paintings sculpture and artworks that formed our Eco arts Exhibition in December 2014
