Ways forward

Next steps?

- Maintain reform momentum
 - Within NIS project
 - External

- Leverage 100 Day Plan

Proposed way forward

- 1. The Vanuatu Government must establish a national integrity committee made up of both government and non government representatives.**
- 2. The national integrity committee must develop and implement a plan for strengthening national integrity, using the outcomes of the 2014 national integrity systems report as a starting point for this plan. The plan should include clear statements of what will be done to achieve each recommendation and when recommendations will be achieved.**
- 3. The Government should declare 2015 to be the Year of National Integrity and the national integrity committee should use this as a focus for implementing changes.**

If support

- Where should cttee be located?
- Who should be on cttee?
- How do we make this happen?

Other (more realistic?) options

- NGO only integrity committee
- Smaller coalitions on specific recommendations
- “Give” specific recommendations to other key institutions to implement
- Use findings for public awareness (how??)
- Ongoing (internal) research
